

Inspect® offers an industry-leading combination of rigor, innovation, integrity, and instructional guidance at one price. The result is ease of assessment delivery that provides specific feedback to teachers so they can quickly inform instruction to increase student learning.

Inspect®

FEATURE	BENEFIT		
<b>37,000+ items</b>	Designed specifically for today's College and Career Readiness Standards (CCRS) to support classroom formative assessment needs.	✓	
<b>Pre-built Interim Formatives</b>	Offers a yearlong series of ready-to-use assessments that can be easily modified to align to <i>your</i> district's pacing.	✓	
<b>Pre-built End-of-Year Practice Assessments</b>	Prepares students and teachers for high-stakes testing by following the released blueprints and specifications of high-stakes testing consortia.	✓	
<b>Detailed Distractor Rationales and Rubrics</b>	Reduces resource dependence by arming teachers with <i>specific</i> data for quick, targeted feedback for intervention and re-teaching.	✓	
<b>Classroom Checkpoint Assessments</b>	Saves teachers time with easy, ready-to-use mini-assessments providing quick insight into mastery of a cluster of standards.	✓	
<b>Ongoing Item Analysis</b>	Ensures items are performing as expected to maintain valid assessments that offer reliable data.	✓	
<b>Item Integrity Development Process</b>	Establishes valid and reliable assessments and data through proven psychometrics and rigorous item development.	✓	
<b>Technology-enhanced Items</b>	Familiarizes students with the expected rigor and format on high-stakes tests, requiring deeper thinking than traditional item types may allow.	✓	
<b>Spanish-translated Assessments</b>	Supports assessment needs for dual language immersion programs that mirror traditional classroom assessments.	✓	
<b>English Language Development Benchmarks</b>	Allows educators ongoing progress monitoring of English learners' English language development in listening, speaking, reading, and writing.	✓	
<b>Middle School Math Acceleration Placement Test</b>	Provides a measure for placement into middle school accelerated math pathways.	✓	
<b>Performance Tasks</b>	Assesses a combination of the knowledge and skills articulated in CCRS in sustained, real-world problems.	✓	
<b>Science and History/Social Studies Items*</b>	Alleviates the challenge of valid assessments for these subjects with alignment to state-specific standards for all 50 states.	✓	
<b>New Items Monthly</b>	Includes all future enhancements at no additional charge, including hundreds of new technology-enhanced items added monthly.	✓	
<b>Metadata</b>	Items are tagged with standard, DOK level, Bloom's Revised Taxonomy level, difficulty, SBAC Claim and Target, PARCC Claim and Subclaim, and Mathematical Practices to allow deep analysis of student learning.	✓	
<b>Assessment Specialist Access</b>	Provides webinars and checkpoints with our Assessment Directors and Inspect® Impact Directors to ensure the most for your investment.	✓	
<b>All at One Price</b>	When we add to our solution, you get it. All of the above is provided for one price helping alleviate budget issues and ensuring educators have what they need to increase student learning.	✓	

\*This alignment available for the 2016-2017 school year.
