

Inspect® offers an industry-leading combination of rigor, innovation, integrity, and instructional guidance at one price. The result is ease of assessment delivery that provides specific feedback to teachers so they can quickly inform instruction to increase student learning.

FEATURE	BENEFIT	Inspect®	
40,000+ items	Designed specifically for today's College and Career Readiness Standards (CCRS) to support classroom formative assessment needs.	✓	
Pre-built Interim Formatives	Offers a yearlong series of ready-to-use assessments that can be easily modified to align to <i>your</i> district's pacing.	✓	
Pre-built End-of-Year Practice Assessments	Prepares students and teachers for high-stakes testing by following the released blueprints and specifications of high-stakes testing consortia.	✓	
Detailed Distractor Rationales and Rubrics	Reduces resource dependence by arming teachers with <i>specific</i> data for quick, targeted feedback for intervention and re-teaching.	✓	
Classroom Checkpoint Assessments	Saves teachers time with easy, ready-to-use mini-assessments providing quick insight into mastery of a cluster of standards.	✓	
Ongoing Item Analysis	Ensures items are performing as expected to maintain valid assessments that offer reliable data.	✓	
Item Integrity Development Process	Establishes valid and reliable assessments and data through proven psychometrics and rigorous item development.	✓	
Technology-enhanced Items	Familiarizes students with the expected rigor and format on high-stakes tests, requiring deeper thinking than traditional item types may allow.	✓	
Spanish-translated Assessments	Supports assessment needs for dual language immersion programs that mirror traditional classroom assessments.	✓	
English Language Development Benchmarks	Allows educators ongoing progress monitoring of English learners' English language development in listening, speaking, reading, and writing.	✓	
Middle School Math Acceleration Placement Test	Provides a measure for placement into middle school accelerated math pathways.	✓	
Performance Tasks	Assesses a combination of the knowledge and skills articulated in CCRS in sustained, real-world problems.	✓	
Science and History/Social Studies Items	Alleviates the challenge of valid assessments for these subjects with alignment to state-specific standards.	✓	
New Items Monthly	Includes all future enhancements at no additional charge, including hundreds of new technology-enhanced items added monthly.	✓	
Metadata	Items are tagged with standard, DOK level, Bloom's Revised Taxonomy level, difficulty, SBAC Claim and Target, PARCC Claim and Subclaim, and Mathematical Practices to allow deep analysis of student learning. Reading passages also include Lexile measures.	✓	
Assessment Specialist Access	Provides webinars and checkpoints with our Assessment Directors and Inspect® Impact Directors to ensure the most for your investment.	✓	
All at One Price	When we add to our solution, you get it. All of the above is provided for one price helping alleviate budget issues and ensuring educators have what they need to increase student learning.	✓	

Inspect® is developed by Key Data Systems - an education industry leader in psychometric services and standards-based assessment. Feature availability may vary by state or by partner. Our partners retain the flexibility to provide only those features they feel benefit their customers.
